

31 May 2007

Dear Sirs,

I would like to apply for the Corporate Support Engineer position you advertised on Internet on 8th May. The reference number of the position is 144324-RM-CISP-24. With my ten-year experience in the field of IP based networks I believe I am a suitable candidate for this position.

I would like to work abroad for I am fond of learning English and I feel that a stay with English speaking people would help me very much. In the past I always worked for an Internet service provider or a telecommunication company as a support engineer. For the last two years I have been working in the Network Development Department of Vodafone Czech as a Network Architect. I have a really deep knowledge in IP network area and I attended many Cisco courses and conferences. However, I also have an experience in other network layers (SDH, ADSL, ATM, FR), which often helps me with problem solving. Moreover, I worked as a second level support in MCI (UUNET, Worldcom) that has given me experience in the field of customer service.

I am flexible and I am fond of looking for the new problems solutions. I like meeting new people and working in a team. I believe that with my technical skills and large experience I could make a valuable contribution to your company in this position.

I have enclosed a copy of my resume with additional information about my qualifications. Thank you for your consideration. I look forward to receiving your reply.

Sincerely,

Martin Lipinsky
